Parents may choose to enter all students under the family name. You will have one entry per grade level in the lottery and if your number is drawn, all students will be placed at the same time. This option is intended for parents who want to keep their children together and who plan to enroll all eligible siblings together.

Please note that a sibling includes any of the following who reside in the same household: half siblings, step-siblings, and children residing in a family foster home. Siblings who live at a separate residence will need a separate application and cannot be entered under the same lottery number as a child from a different household.
