NO SCHOOL

OCTOBER 28TH
Lunch Order #5 is Due

SCHOOL NEWS

We believe strong readers become strong thinkers and lifelong learners when they gain knowledge about the world. That's why we use CORE KNOWLEDGE, an approach to coherent, content-rich instruction built on a powerful, cognitive-science-backed idea: the more students know, the more they can learn. Core Knowledge brings that understanding into the classroom. As students learn about literature, history and geography, science, and the arts, they build the background knowledge that fuels future learning. Each grade builds intentionally on the last, helping students form connections across subjects — connections that deepen over time.
